

Apex[®] Calf

Product Specification & Usage

Product Code	01140																														
Description	Apex[®] Calf is a blend of specific plant extracts formulated to encourage feed intake and improve performance in calves. Apex[®] Calf will help optimize animal performance in husbandry regimes where there is no longer routine use of antibiotic growth promoters.																														
Species	Calves																														
Benefits	Apex[®] Calf is suitable for use in milk replacer and pelleted feeds for calves. It can be added to feed via a mineral and vitamin pre-mix or directly into the mixer at the feed mill. Apex[®] Calf has no withdrawal period, is safe to handle, and is fully compatible with other BFI products.																														
Inclusion Level	100-500gms per ton of feed																														
Flavor Ingredients	Mixed botanical extracts as dry powders and water extracts from traceable sources. Extracts are derived from Garlic, anise, cassia (cinnamon) and thyme.
