

DYNA-K[®]

Potassium Chloride for Animal and Poultry Feed

DESCRIPTION: DYNA-K is a feed grade potassium chloride. It is a source of highly available potassium (K) and chloride (Cl) that will help meet animal and poultry requirements for these essential nutrients.

SPECIFICATIONS:	Guaranteed Analysis:		Physical Characteristics:	
		%		
	Potassium (K), min	50.0	Bulk density:	66-68 lbs/ft ³ (1057-1089 kg/m ³)
			Moisture:	1.0%
			Appearance:	Fine white and pink crystals
			pH:	5.4
			Water Solubility:	99.5-99.9%; 33g/100ml at 68°F (20°C)
	Typical Chemical Analysis*		Typical Sieve Analysis: (Tyler)	
		%		%
	Potassium Chloride, (KCl)	95.0	Passing 14 Mesh	96.0
	Potassium	50.1	Passing 35 Mesh	35.0
	Chlorine	47.26	Passing 65 Mesh	4.0

**Trace mineral profile is available upon request.*

- BENEFITS:**
- DYNA-K is a rich source of potassium, a dietary essential for animal and poultry.
 - DYNA-K supplies potassium in readily available chloride form.
 - DYNA-K provides vital potassium which is essential for maximum activity of the rumen microbes.
 - DYNA-K furnishes the supplemental potassium needed in formulas where forages and oilmeals are replaced with more economical ingredients that may be low in potassium.
 - DYNA-K is available by rail or truck in bulk or in 50lb. (22.7 kg) multi-wall moisture proof bags.

FEED LABEL INFORMATION: When adding DYNA-K to feeds, "potassium chloride" should appear on the feed label. Potassium chloride is an ingredient listed as "Generally Recognized as Safe" (GRAS) by the Food and Drug Administration.
